VIEW SYSTEMS ANNOUNCES UPCOMING VIEWSCAN INSTALLATION IN A PENNSYLVANIA COURTHOUSE

BALTIMORE, MD -- (CRWE NEWSWIRE) – July 20, 2009 – View Systems, Inc. (OTC BB: [VSYM.OB](#)), a security and teledata solutions provider, announced today that the company has been appointed to install a ViewScan Concealed Weapons Detection System into an historic courthouse in Pennsylvania.

ViewScan is fast becoming the choice screening system across the country. It's a computer-based system that can scan up to 1200 people per hour. As a person passes through the portal, a photograph is taken and stored on the laptop computer that comes with the unit. Threat objects are visually located on the computer screen and an audible alert can be set to sound. The ViewScan produces no harmful emissions so it's safe for everyone.

Gunther Than, CEO of View Systems, states, "It's refreshing to know that a Pennsylvania landmark such as this has chosen the ViewScan, a technologically-advanced security screening device, to aid in securing the premises. I'm hopeful that other Pennsylvania courts and corrections officials will hear about this install and will decide to look into the possibility of adding a ViewScan to their facilities."

About View Systems, Inc.:

View Systems, Inc. manufactures and installs weapons detection identification systems, video management platforms and tele-data communication networks targeted towards correctional facilities, schools, courthouses, government agencies, event and sports venues, and commercial businesses.
